Subject: Invitation Renewable Energy Systems for Schools Research Project
Attachments: information-sheet.pdf

Greetings, my name is Elliott Andrews and I am a student from Victoria University of Wellington.
I would like to invite you to take part in my research project, investigating Renewable Energy Systems for Schools.

I have attached the information sheet which describes what the project is about, how you and your school can help, and the outcome of the project.

Your participation would involve an initial meeting, in the form of an interview with me and my supervisor to discuss and ask questions in relation to the project.
You will be provided with a consent form, which will explain what we need from you.

This project is a great opportunity for us both to learn about some of the practicalities and implementations that renewable systems have to offer.
I look forward to hearing your interest in this project.

Warm regards,
Elliott Andrews
Victoria University of Wellington
4th Year Undergraduate Student
BEHons (Software Engineering)
School of Engineering and Computer Science

P.S. You and your school's, participation in this project is voluntary.
